Experience

ADM Welfare Socieity

May 2024-July 2024

UI/UX Design Intern

- Conducted user research and data analysis to identify design opportunities and inform key design decisions, ensuring user-centric solutions
- Engaged in UX design for a website, focusing on enhancing user experience and interface aesthetics.
- Designed impactful and meaningful posters addressing societal issues, aiming to raise awareness and inspire change

Projects

KIET Student App & Admin

Jan 2024 - May 2024

[Play Store Link](#)

- Designed complete UIs for mobile apps, catering to both students and admins.
- Conducted detailed research on design elements like typography and colors, creating a functional and visually appealing UI.
- Developed UI based on specific requirements and student needs, ensuring an intuitive and engaging experience.

Beacon of Hope

Apr 2024 - May 2024

[Figma Link](#)

- Designed a website dedicated to supporting homeless kids and orphans in society
- A purposeful UI to foster empathy and rally community support for these important issues

Education

Computer Science in Cyber Security (Cgpa 7.2)

2021 - 2025

Kakinada Institute of engineering & technology.

- Currently pursuing my final year in Cybersecurity, with a strong foundation in computer fundamentals such as Operating Systems and DBMS. This solid understanding enables me to design robust and practical software solutions.
